

## PRESENTA prep

# The ideal way to prepare presentations away from your PRESENTA board

The PRESENTA prep complements our range of interactive solutions by enabling preparation of presentation, training or lesson material using Px interactive software away from the board, freeing the interactive whiteboard for its primary function - delivery of content.

Portable, precise and above all simple to use, the PRESENTA prep is an ideal companion to your PRESENTA board, allowing you to simulate use of your interactive whiteboard during flipchart preparation or if you want to practise using the software away from the board.

Perfectly proportioned, the A6 pad plugs directly into your computer's USB port, and provides just the right size working area when preparing flipcharts. Also ideal for many other types of work where natural pen input is required, such as drawing and designing, the PRESENTA prep includes a transparent overlay for precise tracing.

Incorporating a pen with both left and right mouse buttons, users can benefit from full mouse functionality while being able to write naturally when preparing flipcharts. The pen supplied is also cordless and battery free, preventing wires from getting in the way of your work and eliminating the need for periodic recharging. A pen holder, integrated into the tablet, means that the pen is never lost.

The PRESENTA prep enables teachers to easily prepare dynamic teaching material at home or in the staff room, prior to using the PRESENTA board during lessons.

## PRESENTA prep specifications

Active area	127.6 x 92.8mm (approx A6)
Dimensions	224.1 x 221 x 22.3mm (W x D x H)
Cable length	1.5m
Power consumption	0.2watts
Power supply	DC 5V, 40mA (via USB port)
Resolution	1000 points (lines) per inch
Precision	+/-5 resolution points
Maximum reading height	3mm
Interface	USB
Connection	USB A
Certification	FCC Class B, BSMI complies CE guidelines
Computer requirements	Windows 98, ME, 2000 or XP. IBM compatible PC (Pentium 200 200 or higher), 64 MB Ram, 24 bit colour display (800 x 600mm) or greater. USB with separate power supply. CD ROM Drive
Weight approx	332g

### Pen

Dimensions	224.1 x 221 x 22.3mm (W x D x H)
Side switch	Single switch, programmable
Pen tip travel	2:0mm or less
Pressure levels	512
Weight	Approx10g
Warranty	2 year return to factory

*Px software is not included with the PRESENTA prep.*
